SUMMARY

Driven and solution oriented product designer who loves to code and is passionate about crafting meaningful user experiences.

Experienced in web and mobile application design, front end programming and product strategy. I believe that doing is better than not doing, to always show up imperfectly, keep it simple and keep your ego out of it.

You can see more of my skillset and relevant design work at www.meghan.work.

CERTIFICATIONS

Interaction Design Specialization

University of California, San Diego

Full Stack Web Development: Javascript, Ruby on Rails, HTML/CSS

Le Wagon

Visual Design and Branding, React.js, Animation for the Web, AJAX & APIs

SuperHi

PROJECTS

Fonts in the Wild

Designed and shipped [Fonts in the Wild](#), a design resource to find free and paid font inspiration for commercial and personal projects

Fancier

During Le Wagon bootcamp, I led UX/UI design and on a team developed a social marketplace for pre-loved festival outfits; you can watch me pitch a demo of mobile-first Fancier live [here](#)

ACHIEVEMENTS

Featured Product Hunt Maker

[Launched product](#) currently at 2nd Product Hunt featured position for launch day at 450+ upvotes and 5/5 average reviews; Fonts in the Wild is used by thousands of users weekly

Team MVP

During Q1 of 2019, nominated MVP at Oracle due to new hire mentorship and highest quota attainment of an average of 228%
